

The owner of the Service is Satakunta University of Applied Sciences (hereinafter referred to as the Service Provider).

The data given to the Service are stored in Youragent.fi information system in real time. The stored data will only be used for filling participating businesses' vacant summer jobs and internships.

The data of the applicants are visible to the businesses offering jobs. An applicant only sees a list of names of the businesses offering jobs. The expertise profiles of the offered jobs are only visible to the offering businesses themselves.

The User's rights and responsibilities

- The User must adhere to the terms and conditions regarding identifiers of the identifier granting party.
- The User is responsible for any mistakes or abuse due to negligent use of identifier or password.
- The User is responsible for the truthfulness and appropriateness of the data they have entered the Service. The User must also take care to not violate good practice, law or regulatory provisions.
- The right to use of a User is valid indefinitely. The User may forgo their right to use by requesting the Service Provider for account removal
- The User is responsible for all costs incurred by using the Service, e.g. the usage costs of their Internet service provider or phone costs.

The Service Provider's rights and responsibilities

- The Service Provider will make their best effort to make the Service available 24 hours, seven days a week. The Service Provider will not be responsible for Service functionality or Service outages, data transmission errors or data changes resulting from the aforementioned problems due to technical difficulties, maintenance or updates.
- The Service Provider will provide appropriate protection and encryption for all data transfer between the User and the Service.

- The Service Provider retains the right to temporarily suspend the operation of the Service, should it prove necessary due to e.g. technical changes or updates to the Service.
- The Service Provider retains the right to provide the Service as they see fit and to change the content of the Service.
- The Service Provider retains the right to remove an account that is in violation of the terms of service or liable to cause disruptions. In case of a disruption, the Service Provider also retains the right to temporarily suspend access to the Service. After hearing the User, the Service Provider retains the right to suspend access to the Service either permanently or temporarily.
- The Service Provider retains the right to complete missing information on or remove a job expertise profile.
- The Service Provider retains the right to change or replace these terms of service unilaterally, as long as the Service remains free of charge to use. These terms of service are in effect indefinitely starting from 26/02/2020. Should the terms of service change, the User will have to accept the renewed terms.
- The Service Provider is not responsible for the accessibility, performance or functionality of the Service. There may be unannounced interruptions to the accessibility of the Service.
- The content of the Youragent.fi Service, such as layout, text, images, videos, information, logos, icons, software, sound files and other content, is protected by copyright and trademark laws where applicable. The program code required to implement the Service is protected by copyright, rendering copying or modifying said code punishable by law.
- The content of Youragent.fi may not be duplicated, displayed, exhibited or performed in public, disseminated, used in any way for purposes of advertisement or sales along with products and services not associated with Youragent.fi, used in a way that may cause confusion among the users of the service, used in a way that belittles or degrades the Youragent.fi service, or in any way abused.

Security and technical recommendations

The Service can be used with a client that has a web browser. The browser must support TLS 1.1 or newer. Cookies and JavaScript must be enabled.

The Service is designed for and tested on the most common combinations of modern browsers and operating systems.

The User will be automatically logged out after 24 hours.

Browsers may use caching to speed up displaying previously visited pages.
